SEND FEED

SeNT Referrals Dr A Practitioner

Patient name: Mrs Penny ANDERSON DoB: 4 Jul 1993

Referral recipient

* Specialty and condition [Cardiology - Diagnostic Tests](#)
[Go to HealthPathways](#)

* Priority

* Facility type

* Geographic location

* Provider name

Referral address

* Date patient consented to referral

Patient will consider telehealth?

Are you the patient's usual GP?

Specialty clinical information

If your patient is at risk of rapid deterioration, potentially serious morbidity and/or life threatening complications, do not send an eReferral and immediately arrange transfer to the closest emergency department

Show emergency referral criteria

Indication(s)

* Indication(s)

☐ Atrial fibrillation (AF)

☐ Chest pain (non-acute)

☐ Hypertension

☐ Palpitations

☐ Hyperlipidaemia

☐ Rheumatic heart disease

☐ Heart conditions in pregnancy

☒ [Diagnostics \(including Pacemaker and implanted Cardiac Defibrillator checks\)](#)

Referral Information

* [Investigation required](#)

☐ Electrocardiograph (ECG)

☐ Echocardiogram

☐ Stress testing

☐ Arrhythmia monitoring

☐ Ambulatory blood pressure monitoring

☒ [Implantable device check](#)

☐ Tilt table testing (TTT)

Urgent device checks should present to emergency

* Urgency

* [Implantable device types](#)

☒ Permanent pacemaker

☐ Implantable cardiac defibrillator

☐ Loop recorder (implantable event monitors)
